GeoPro Procedure of Activation
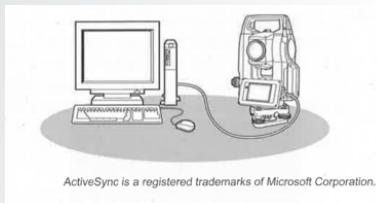

Perform the following procedure to activate the product before the first use.
There are two methods of activation: online or offline.

Note: If your company does not currently have a Sokkia Enterprise Solutions account, create one at *https://sokkia-registration-prod.herokuapp.com/* or from within the application using the **Create Account** button shown below in **Step 3.**
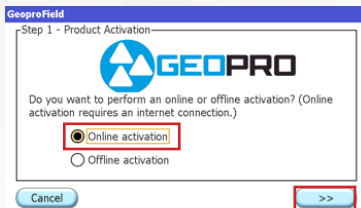

ONLINE ACTIVATION

1 Connect the instrument to the Internet either by ActiveSync software to a PC connected to the Internet, or via Wi-Fi.
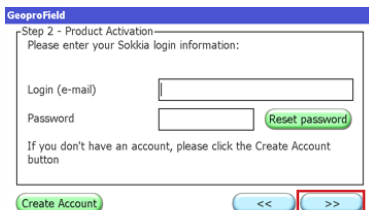

2 When GeoPro starts up, it will prompt with the dialog shown below; **Select "Online activation"** and **click >>.**
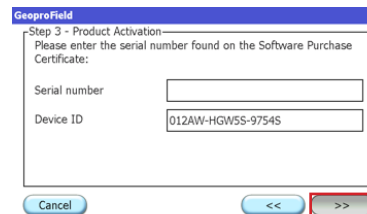

**3** Enter your Sokkia Account information and **click >>**.

**4** Enter the serial number provided on the GeoPro Software Purchase Certificate into the dialog shown below and **click >>.**

5 **Click** on the **"Accept toggle"** and **click [Activate]** to accept the License Agreement.

6 Confirm that the product is activated, as shown below and **click [Close]** to complete the process.
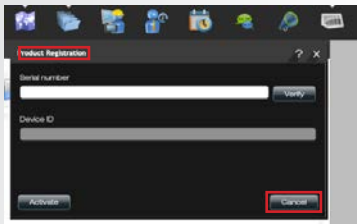

GeoPro Procedure of Activation

Note: Offline activation does not require that your total station is connected to the Internet.

OFFLINE ACTIVATION

1 Access MAGNET® Enterprise and **click "Product Registration".** Enter the serial number provided on the GeoPro Software Purchase Certificate into the field shown below, and **click [Activate].**
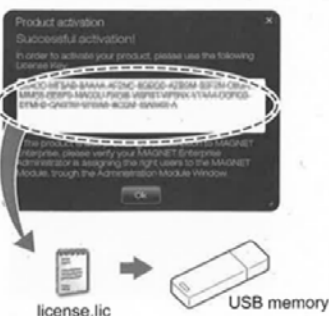

2 Connect in the dialog, **click [Accept]** to consent the License Agreement.

3 In the Product Activation dialog, copy the license key and paste it to a text file. This file should be named as **"license.lic",** and copied to a USB drive.
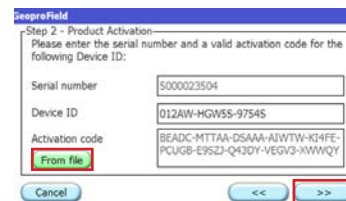

4 Insert the USB drive in which **"license.lic"** file is saved to the total station and start up GeoPro. When GeoPro turns on, it will prompt with the dialog shown below. **Select "Offline activation"** and then **click >>.**
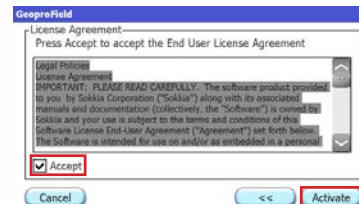

5 Enter the serial number provided on the GeoPro Software Purchase Certificate and **click [From file].** Select the **"license.lic"** file in the USB drive. Confirm the shown activation code and **click >>.**

6 **Click** on the **"Accept toggle"** and **click [Activate]** to accept the License Agreement.

7 Confirm that the product is activated, as shown below and **click [Close]** to complete the process.
